ABOUT WHERE I WORKED...

TAGUCHI DIGITAL MARKETING

The Taguchi® digital marketing system is a 100% Australian owned and developed. This means all of our support and product development is managed locally enabling you to have greater access to product matter experts to implement and customise your digital marketing programs quickly and cost effectively.

DATA DIRECT AUSTRALIA

Data Direct Australia provides direct mail solutions, database management, mail processing & distribution, campaign management, graphic design services, cross media marketing (email, web & SMS) and most recently, offset printing. I managed client design requirements for offset printing, generic and variable data printing. My contributions are in Graphic Design and Prepress / Finished artwork.

IDP EDUCATION, AUSTRALIA

IDP Education is an international education organisation offering student placement in Australia, and to New Zealand, the USA, UK, and Canada. IDP is also a co-owner of the world's most popular high-stakes English language test.

KOOLIVOО

Koolivoo is a marketing services management company specialising in the development of significant presentation of destinations and services for tour operators and travel agents globally through brochures, web publications, presentations, and websites. Through rigorous research and testing, we greatly improved our workflow, from manually setting up brochures to automated publishing. I created Adobe InDesign Templates and integrated XML data into it. It was highly successful; the process

dramatically shortened production time, accurately imported text and graphics in just minutes and maintained the high quality of the brochures.

RAMCO PRINTING

Ramco Printing offers Plan Printing, high volume digital print & copy, bindery and large format printing. As the prepress designer; I prepared files for print and created quick designs when needed. I also operated the copier machines and digital printers.

CREATIVE PAGE ONLINE

Now operating under the business name Web Providers Dev, is a professional customer service firm dedicated to providing prepress and design, online marketing support and call centre services for the UPrinting Network, an online printing firm based out of Los Angeles, California. We served thousands of on-demand business printing and graphic printing orders online daily, processing all types of printed marketing collateral for offset, digital or large format printing.

DE LA SALLE UNIVERSITY PRESS

I was promoted as the Supervisor of the Design and Layout Unit for the Tradebook / Textbook and Print Production Division. Aside from a Graphic Designer role, I became more involved with project management and I collaborated with the Production Manager and Printing Press Team to deliver on all of De La Salle University Press' services. We printed thousands of high quality Journals, Pre-School books, textbooks, posters, flyers, annual reports, and newsletters.

An academic press, De La Salle University Press publishes tradebooks, textbooks,

instructional materials, monographs, scholarly journals, research reports and professional lectures. In addition, DLSU Press provides editing, design and print production of marketing collaterals. I liaised with the Editor-in-Chief and Layout Artists, the results were successfully published books that sold well and exceeded author's expectations.

SCANA KEATING GRAPHICS, INC.

SKGI Philippines is a leading provider in packaging, prepress, flexographic plate and gravure cylinder manufacturing, large format printing and brand communication consultancy.

UNIVERSITY OF TECHNOLOGY, SYDNEY (LIBRARY & ADMINISTRATIVE UNITS)

UTS Library provides support for the teaching, learning and research needs of the students and staff of the University of Technology, Sydney.

UTS is one of the largest, dynamic and most innovative Universities in Australia, with a distinct model of learning, strong research performance and a leading reputation for engagement with industry and the professions.
